Date

Pursuant to the Association's Guidelines; Section 6.02 Boats:

5. Keeping a boat at the beach during summer months:

- A. Boats must be registered with the property management company and labeled with lot numbers prior to being kept at the beach area. Those not registered and labeled will be removed and disposed of.
- B. Lot numbers of at least three inches in height must be displayed prominently on all boats.
- C. Boats may be kept at the beach area from April 1st through October 31st.
- D. Boats must be removed from the beach area by November 1st. Any boats remaining after November 1st will be removed by the Association and held until December 1st. Any boat not retrieved by December 1st will be disposed of. Homeowners in violation of this Rule will be charged a \$100.00 fine in connection with the storage of their boat.
- E. During the boating season, boats are to be neatly kept in designated areas of the beach.
- F. Boats should be rendered unusable at the end of the day by locking or removing key components.
- G. Boats kept at the beach area are the responsibility of the boat owner. The Prairie Crossing Homeowners Association assumes no responsibility for improper usage, injury, theft or vandalism resulting from the storage or use of these boats.

The term "boats" is intended to include all types of watercraft such as canoes, kayaks, paddle boards, etc.

- Please consider participating in the boat sharing program to reduce the number of boats stored in the small, designated area of the beach. Shared boats will be stored at the beginning of the flagstone and will be stickered "SPC" which means Share Prairie Crossing.
- Boat stickers should be placed on the rear, right (aft, starboard) on the side or the bottom of the boat, so that when it's stored, the sticker is easily visible.
- Boats are to be neatly kept in designated areas of the West end of the beach, from the Flagstone to the Wooden Fence. The goal is to not store boats on the sand so the beach area is available for use.
