

FUELING GROWTH FOR THE FOOD & BEVERAGE INDUSTRY

Smarter Systems. Fresher Results.

From farm to fork (or shelf), NetSuite brings every part of your food processing operations into one cloud-based system. Say goodbye to disconnected tools and hello to a unified platform that simplifies recipes, inventory, finances, and fulfillment—with precision you can taste.

HERE'S WHAT'S COOKING

-  End-to-end visibility from purchasing to delivery
-  Easy recipe, batch, and cost management
-  Dual-unit inventory tracking (packs, kilos—you name it!)
-  Built-in lot tracking and recall tools for quality control
-  Automated compliance reporting
-  Real-time dashboards for quicker, smarter decisions
-  Predictive analytics for accurate demand forecasting

ENHANCED BY FernSpeed PERFECTED FOR F&B.

We've partnered with Fernspeed to tailor NetSuite for your kitchens, factories, and outlets—with mobile dashboards, ingredient tracking, and efficient workflows built for the way your team works.

CUSTOMER SUCCESS STORY

A fast-scaling cloud kitchen company partnered with Softype to re-implement NetSuite in a fully optimized setup. The solution now captures daily sales and kitchen output, streamlining inventory, procurement, and supply chain planning. With real-time insights fueling operations, the business runs leaner, faster, and smarter.
