

*Costing by estimate?
Closing by hand?*

What if you knew your real margin per batch?

When your recipes, production and financials don't speak the same language, **every batch is a guess.**

NetSuite + FernSpeed. **Built for F&B.** Delivered by Softype.
Real-time costing. Tighter margins. **A month-end close that doesn't hurt.**

WHAT CHANGES WHEN YOU KNOW YOUR REAL NUMBERS

TODAY

WITH NETSUITE + FERNSPEED

Batch costing by estimate

Real cost per batch, per run, per product

Margin visibility at month-end

Real-time margin dashboards by product and line

Inventory in spreadsheets and separate systems

Catch-weight and dual-unit tracking in one system

Production cost and GL reconciled manually

Batch cost flows to GL automatically. One close

Recall prep takes days of digging

Compliance-ready, audit-ready lot traceability

Raw material price changes hit you late

Real-time cost impact on open and future batches

One system. Production to P&L.

The Softype Edge

We don't just speak "ERP"; we speak "F&B".
